LEGISLATIVE PROGRAM

(Mr. BONIOR asked and was given permission to address the House for 1 minute.)

Mr. BONIOR. Mr. Speaker, I asked to speak for purposes of inquiring of the distinguished majority leader, the gentleman from Texas [Mr. ARMEY], the schedule for today and the remainder of the week and then next week.

Mr. ARMEY. Mr. Speaker, will the gentleman yield?

Mr. BONIOR. I yield to my friend from Texas.

Mr. Speaker, we have concluded legislative business for the week. I am pleased to announce that Members are free to return home for the Memorial Day district work period. The district work period will continue through Monday, May 27, and Tuesday, the 28th. The House will return to business on Wednesday, May 29, at 2 p.m., for legislative business. Please note that we will not have any recorded votes before 5 p.m. on May 29.

Mr. Speaker, on Wednesday we will consider H.R. 3322, The Omnibus Civilian Science Act, the rule for which has already been adopted.

On Thursday, May 30, the House will meet at 10 a.m. to take up the military construction appropriations bill for fiscal year 1997, which of course will be subject to a rule.

Next week the House may also consider a privileged resolution from the Committee on Government Reform and Oversight that holds certain of the President's aides in contempt of Congress for refusing to turn over subpoenaed documents in the Travelgate investigation.

Mr. Speaker, we should finish legislative business by 2 p.m. on Friday of next week.

I thank the gentleman for yielding me this time and wish him an enjoyable weekend.

Mr. BONIOR. Mr. Speaker, I thank my colleague, and if I can just inquire, a couple of brief questions to my friend from Texas? We will have votes next Friday then, I take it from the gentleman's remarks?

Mr. ARMEY. Yes, we plan on having votes on Friday.

Mr. BONIOŘ. Would the gentleman care to inform us when he expects to go next week?

Mr. ARMEY. Of course, I believe the Senate is still proceeding on that, but as soon as we can next week we will be going to conference.

Mr. BONIOR. And if I might inquire, what day does the gentleman from Texas expect to consider the privileged resolution concerning the subpoenaed documents that he referred to in his remarks?

Mr. ARMEY. Most likely on Friday.

Mr. BONIOR. Most likely on Friday.

And finally, in light of the close to \$60 billion CBO estimates on the star wars or missile defense program, when does the gentleman think that bill will be brought back for consideration?

Mr. ARMEY. I have no announced plan at this time. I would like to bring it back in the next couple of weeks. But I will have to wait and to announce it later.

Mr. BONIOR. And I would say to my friend from Texas, if he could inform us how late Wednesday, that might help Members plan. The gentleman said 5 o'clock we will have our first votes. And we expect a late evening on Wednesday?

Mr. ARMEY. The science bill could go late. We would try to get some authority to roll votes so that we could organize the time on behalf of the Members, but we should be prepared to work late on Wednesday.

Mr. BONIOR. Mr. Speaker, I thank my friend. I wish him a happy Memorial Day weekend and a good evening.

PERSONAL EXPLANATION

Mr. HOKE. Mr. Speaker, I was just called to my office and informed that I was not recorded on the last vote on H.R. 1227. I was present on the floor at the time, from the time of the first Goodling amendment, and apparently inadvertently left the floor without having cast my vote, although I was under the impression that I had.

My vote on final passage of 1227 would have been "yes."

QUESTIONING PRESIDENT CLIN-TON'S COMMITMENT TO OUR NA-TION'S SPACE PROGRAM, AND URGING MEMBERS TO SUPPORT BUDGET RESOLUTION ON NASA

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida [Mr. WELDON] is

recognized for 5 minutes.

Mr. WELDON of Florida. Mr. Speaker, I have a great deal of difficulty with President Clinton's real commitment to our Nation's space program. We have all heard his official position, but how does that compare with the demonstrated position? On the one hand, his science adviser says the President steadfastly opposes any cuts in science and technology. That came from Jack Gibbons on March 29. Vice President GORE said the President's 1997 budget will provide generous funding for science and technology. But if we look at what the President does to NASA's budget, if we look at what the President actually does, rather than what he says or his staff says, we get a different picture.

Mr. Speaker, the President made dangerous, deep cuts in NASA'S longterm budget. We can see on this graph that I have here, the House budget does decline NASA's budget slightly over 7 years in the effort to balance the budget, but the President's cuts are very, very deep and I believe seriously undermine our ability to have an effective and growing investment in science and technology.

Indeed, the President puts a lot of investment in a program that I think is of some questionable scientific value. One has to wonder about the foundations of his space policy. I believe the future of space exploration lies in programs such as our international space station and continuing our investment in the shuttle program, as well as developing new launch vehicles.

I know what would happen to our space program if the United States were left with the kind of budget that the President is proposing here. It would just be a shell of a program. Our
